

Package Theft Prevention

Package Theft Prevention Tips:

- " Track your shipments online. Most companies allow subscriptions to delivery notification alerts.***
- " Have packages delivered to a relative or a neighbor who will be there to accept them.***
- " Most major companies offer alternative delivery and pick-up options.***
- " If you leave for vacation, place a hold on mail and package delivery.***
- " Make home surveillance cameras visible. While good video footage from hidden cameras assists with identifying suspects after the fact, prominently displayed cameras are a better theft deterrent.***
- " Keep an eye out for suspicious vehicles and people in your neighborhood. Some thieves follow delivery trucks and steal packages after they are delivered.***
- " If you notice suspicious behavior in your neighborhood, call 911 and provide a description of the vehicle and the person.***
